Utah Tech Online

Online Programs and Courses

Website:	http://online.utahtech.edu/
Phone:	(435) 879-4822
Email:	online@utahtech.edu
Office:	Technology Building (TECH), 115

Utah Tech University offers quality online education. Available options are:

Online Programs (https://online.utahtech.edu/programs/) - complete degrees and certificates offered fully online
Online Courses (https://online.utahtech.edu/courses/) - classes offered online

Both programs and courses are accessible from any location via the Internet. Each online offering includes active and applied learning, providing students with an opportunity to actively apply what they learn to real-world challenges and tasks in their local community/area.

The majority of online offerings are taught asynchronously–a format that allows you to learn on your own schedule, within a certain timeframe. There are some online offerings that may include limited synchronous (real-time) elements such as team collaboration, discussions, or other activities. Where synchronous activities are required, designated days/times will be noted in the class schedule and course syllabus

One-stop office: online student support

Email:	onestop@utahtech.edu
Office:	Technology Building (TECH), 114
Phone:	(435) 879-4748

Co-located with Utah Tech Online is the Utah Tech One-Stop Office. One-Stop is charged with supporting both online and adult students from initial interest through application to graduation. The One-Stop Office offers academic counseling for the majority of online programs and can assist students in finding the help they need within the University structure.
