The Ambassador Leadership organization serves prospective students as they select and prepare to attend Utah Tech University. Promoting education first, the Ambassadors are the face of Utah Tech and work closely with the Admissions department to raise awareness for educational opportunities. These students, selected based on academic merit and past leadership experience, must maintain a level of academic performance to participate in the group. Each year new scholarships are awarded to incoming freshmen, transfer students, and continuing Utah Tech students. Please check the scholarship website for application requirements and due dates.
