<b>Website:</b>	<a href="https://src.utahtech.edu/">https://src.utahtech.edu/</a>

The purpose of the Utah Tech Student Resource Center (SRC) is to provide supportive services, resources, and connections for students as they navigate the academic process. The SRC educates students regarding university policies and procedures, connects them to campus and community resources, provides academic coaching, facilitates mentoring, and motivates students toward successful completion of their postsecondary education. Targeted resources are available for basic needs, women's resources, first-generation and non-traditional students, and students with dependents.

If you have any questions or would like more information about the Student Resource Center, please feel free to contact us. The Center looks forward to hearing from you!
