ACCT 2010. Financial Accounting. 3 Hours.
Required of students pursuing majors and emphases in the School of Business, and open to other interested students. Introduces basic concepts of financial accounting, covering complete accounting cycle for service and merchandise companies, including depreciation, accounts receivable, and inventory. Inclusive Access Course Material (electronic book) fees may apply, see Fees tab under each course section for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Explain the role of accounting in society and business. 2. Identify the components of the basic financial statements, including the Balance Sheet, Income Statement, Retained Earnings Statement and Statement of Cash flows. 3. Analyze accounting information by applying the concepts of debit and credit using journals and ledgers. 4. Record transactions by applying the debit/credit framework in journals. 5. Summarize business activity using a ledger. Account for the major types of transactions affecting cash; inventory; accounts and notes receivable including bad debt and interest computations; long-term assets including the acquisition, disposition and depreciation of these assets; and current and long-term liabilities. 6. Report the financial results of business activity using financial statements including the Income Statement, Statement of Retained Earnings, Balance Sheet, and the Statement of Cash Flows. 7. Identify internal control procedures to protect business assets and the reporting of fraudulent financial information. 8. Discuss ethics in business and accounting and their effect on society. FA, SP, SU.

ACCT 2020. Managerial Accounting. 3 Hours.
Required of students pursuing majors and emphases in the School of Business, and open to other interested students. Introduction to managerial accounting principles, including product costing, cost-volume-profit analysis, profit planning, capital budgeting, and financial statement analysis. Inclusive Access Course Material (electronic book) fees may apply, see Fees tab under each course section for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Identify and give examples of each of the three basic manufacturing cost categories. Compute variances in each of the three cost categories. 2. Prepare income statements for a merchandising company using the traditional and contribution formats. 3. Explain how variable costing differs from absorption costing and compute unit product costs under each method; including the use of cost-volume-profit relationships in variable costing. 4. Understand why organizations prepare budgets and the processes they use to create budgets. 5. Compute return on investment (ROI) and residual income and show how changes in sales, expenses, and assets affect ROI and residual income. 6. Evaluate the acceptability of an investment project using the net present value and the internal rate of return methods. 7. Prepare a statement of cash flows using the indirect method to determine the net cash provided by operating activities. 8. Compute and interpret financial ratios that would be useful to stakeholders. Prerequisites: ACCT 2010. FA, SP, SU.

ACCT 3001. Accounting Intermediate Career Strategies. 1 Hour.
Required of students pursuing a major in accounting. Intermediate career strategy course with the emphasis on successfully completing a focused career search in accounting. Target career industry sector(s) and specific opportunities and/or career tracks within preferred sector(s) will be identified. Emphasis is placed on creating a professional career strategy and career portfolio. It is recommended that students take this course by their junior year. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. At the successful conclusion of this course, students will be able to: 1. Conduct a targeted career search related to individual skills, interest, and current career opportunities. 2. Create and maintain a professional network that will support a targeted career search. 3. Create a customized resume for each identified career opportunity. 4. Create a Personal Career Portfolio, presenting academic work product germane to their targeted career search. 5. Demonstrate a professional manner during phone and personal interviews. Prerequisites: SSC 1010, BUS 2000 or BUS 1050. FA, SP.

ACCT 3005. Accounting Essentials Boot Camp. 1 Hour.
The one-credit Accounting 3005, Accounting Essentials Boot Camp, course has been designed to help students develop a sufficient working knowledge of the Accounting Cycle to prepare them for the more in-depth study of the Accounting Cycle featured in Intermediate I (Accounting 3010). **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Demonstrate their development of a working knowledge of the Accounting Cycle by working through the Accounting Cycle for several comprehensive Accounting-Cycle problem sets as well as a comprehensive Accounting-Cycle problem-based exam. Corequisite: ACCT 3010 (for students who failed to meet the grade or time requirement in ACCT 2010). FA, SP.

ACCT 3010. Intermediate Accounting I. 3 Hours.
Required of students pursuing a degree or emphasis in Accounting. Covers conceptual framework of accounting; reviews the accounting process; reviews accounting statements including the income statement, balance sheet, and statement of cash flows, and includes an in-depth coverage of revenue recognition, accounting changes and error correction, and financial statement analysis. Inclusive Access Course Material (electronic book) fees may apply, see Fees tab under each course section for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Describe the objectives and challenges of Generally Accepted Accounting Principles for Financial Reporting, including the parties involved in standard-setting. 2. Describe the Conceptual Framework underlying financial reporting. 3. Understand and apply the flow of Accounting Information from Event Transaction Analysis through the completion of Financial Statements. 4. Understand and apply the concepts and techniques that underlie the preparation of the four major financial statements (Income Statement and Statement of Retained Earnings, Balance Sheet and Statement of Cash Flows). 5. Understand the essentials of compound interest, annuities and present value, as they apply to financial reporting. 6. Understand and apply the acceptable reporting, recognition, and valuation concepts related to current assets, long-term assets, and current liabilities. Prerequisites: ACCT 2010, and ISA 2010 or CIS 2010. FA SP SU.
ACCT 3020. Intermediate Accounting II. 3 Hours.
Required of students pursuing a degree or emphasis in Accounting. Covers accounting for current and long-term assets, including accounts receivable, inventories, operating assets, and investments; accounting for current and long-term liabilities, including contingent liabilities, debt securities, and leases; and accounting for equity transactions, including capital stock issuance and reacquisition, stock rights and options, and dividends. Inclusive Access Course Material (electronic book) fees may apply, see Fees tab under each course section for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Solve present value problems to determine, bond price, lease payment, and pension obligations. 2. Identify and determine the costs included in initial valuation of property, plant and equipment, including self-constructed assets and those acquired through exchange. 3. Compare different depreciation methods, including activity methods, straight-line methods, and decreasing-charge methods and explain the accounting related to asset impairment and gain/loss contingency. 4. Apply the methods of bond discount and premium amortization, including effective interest method and straight-line method. 5. Identify and account for operating and capitalization methods of recording leases for both lessee and lessor. 6. Use temporary differences that result in future taxable and future deductible amounts and their treatment in the financial statements. 7. Identify types of pension plans and the components of pension expense. 8. Identify and account for the components of stockholders’ equity including calculating earning per share in basic and complex capital structures. 9. Construct financial statements and develop full and fair disclosures based on GAAP. 10. Exercise professional judgment to differentiate and employ GAAP technical concepts to construct and present financial statements, including balance sheet, income statement, statement of retained earnings and statement of cashflows, along with the related disclosures. 11. Research accounting issues and related authoritative accounting technical resources to illustrate the application of GAAP and IFRS accounting principles. Prerequisites: ACCT 3101 and ACCT 3001. FA SP.

ACCT 3300. Cost Accounting. 3 Hours.
Required of students pursuing a degree or emphasis in Accounting. Covers the analysis of costs in a business organization for both internal and external use by management. Includes job order and product costing, standard variances analysis, profit performance analysis, labor costing, cost-volume-profit analysis, budgeting, and capital building. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Demonstrate basic knowledge of cost accounting concepts. 2. Compute variances and demonstrate understanding of their meanings. 3. Apply both process costing and job costing methods in product costing. 4. Measure and manage customer profitability. 5. Use performance measurement systems including balanced scorecard and economic value added. 6. Propose pricing decisions that maximize revenue using cost-volume profit analysis and the contribution format income statement approach. Prerequisites: ACCT 2020; AND Advanced standing. FA SP.

ACCT 3400. Tax Accounting I. 3 Hours.
Required of students pursuing a degree or emphasis in Accounting. Covers current federal income tax laws and the preparation of individual income tax returns, emphasizing analysis and interpretation of tax rules and their practical application as well as researching tax laws and rules. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Demonstrate and explain the theories and concepts of taxation. 2. Develop a strong foundation in federal taxation at an individual and entity level. 3. Develop and demonstrate a thorough understanding of the development process of tax authority and tax research at the mastery level. 4. Link separate pieces of tax law to develop a framework for individual and entity income tax strategy. 5. Develop skills in preparing and analyzing both tax forms and professional tax software. Prerequisites: ACCT 3010. FA SP.

ACCT 3440. Tax Practicum I. 1 Hour.
Required for Accounting majors. Gives Accounting students the opportunity to refine their interpersonal skills and apply tax concepts from the Tax Accounting I course as they meet with clients to prepare their tax returns in real time with state-of-the-art, Internet-based tax preparation software as part of the VITA (Volunteer Income Tax Assistance) program. Students are expected to meet with clients outside of the regularly scheduled Monday training classes at least two times per week. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Demonstrate an in-depth working knowledge of TaxSlayer, the IRS-provided tax preparation software used to complete client’s federal and state tax returns. 2. Complete the IRS certification exams. 3. Collaborate in the 9-week VITA program volunteering one full evening each week. 4. Demonstrate proficiency in content knowledge in weekly class which serves as a training session. 5. Formulate peer-reviews of tax returns before electronically filing. Prerequisites: ACCT 3400 (can be concurrently enrolled). SP.

ACCT 3500. Acctg Practicum Techniques. 2 Hours.
Required for students pursuing a degree in Accounting. Provides hands-on instruction using QuickBooks software to prepare financial statements and related analysis. Payroll tax compliance, reporting, and planning will be covered, with emphasis on interpretation and practical application. Designed to provide Accounting majors with skills needed in ACCT 4600. This course requires purchase of software, see instructor for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Demonstrate an in-depth working knowledge of the QuickBooks accounting software package for purposes of routine financial accounting record keeping in a small to mid-size business. 2. Prepare and analyze financial statements. 3. Prepare all facets of payroll (pay checks, W-2’s, 940’s, 941’s) and payroll tax compliance. Prerequisites: ACCT 2020. FA, SP.

ACCT 4100. Auditing. 3 Hours.
Required of students pursuing a degree or emphasis in Accounting. Covers auditing standards, internal accounting, control systems, compliance and substantive audit procedures applied to accounts and transaction cycles, and audit reports. Reviews the auditing concepts of materiality and risk, types of evidence and documentation, and introduces the ethical and legal responsibilities of the Certified Public Accountant. Inclusive Access Course Material (electronic book) fees may apply, see Fees tab under each course section for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Differentiate the roles of auditing assurance services and non-assurance services provided by CPAs. 2. Describe the nature of CPA firms and the role of the PCAOB and SEC, along with the effects of the Sarbanes-Oxley Act on the CPA profession. 3. Identify the parts of the standard audit report and the different audit opinions that can be offered. 4. Evaluate ethical from unethical behavior in personal and professional contexts and identify the enforcement mechanisms within the CPA profession. 5. Critique corporate internal controls, analyze evidence and documentation in audit evidence gathering. 6. Explain the audit process and differentiate the responsibilities of the auditors versus management. 7. Explain the audit process, including planning, evidence accumulation and evaluation, and reporting. Course fee required. Prerequisites: ACCT 3101. FA, SP.
ACCT 4150. Forensic Accounting. 3 Hours.
This course will review the role of the fraud examiner/forensic accountant in investigations and audits. Topics covered will include: Criminology, ethics, detection and investigative tools, fraud schemes, lost profit analyses, and financial litigation and remediation. Students will emerge from the course with an understanding of the role of a forensic accountant and familiarity with their tools and practices, and increase their ability to recognize potential fraudulent situations. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Differentiate the roles of auditing, fraud examination, and financial forensics. 2. Define the role of fraud examination and financial forensic skills related to management and those charged with corporate governance responsibilities. 3. Discuss the role of the computer in cybercrime. 4. Explain the legal, regulatory process, including the discovery process. 5. Define evidence and the challenges associated with proving intent on the part of the fraudster. 6. Explain suggested approaches for conducting interviews. 7. Explain fraud prevention and fraud deterrence. 8. Explain how financial statement fraud may be committed and deterred. 9. Identify the activities related to consulting and litigation support. Prerequisite: ACCT 2010 & 2020. FA, SP.

ACCT 4600. Accounting Practicum. 3 Hours.
Required for students pursuing a degree in Accounting. This Capstone course is the culminating assessment of the accounting curriculum and requires students to synthesize core knowledge from across the degree program and apply accounting skills to benefit various organizations. This course will: (1) provide an exceptional learning environment that places students in a real-life, business accounting practice and advising setting; (2) provide for an assessment of students' knowledge and ability to apply what they have learned in each functional area of business (accounting, economics, management, quantitative business analysis and statistics, information systems, finance, marketing, legal and social environment, and international business) and professional accounting (financial accounting, auditing, management accounting, cost accounting, internal controls, financial statement analysis, individual taxation, business ethics in accounting); and (3) provide opportunities for students to develop professionalism and a professional network, while learning about professional opportunities for individuals with an accounting degree. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Apply facts, concepts, theories, and analytical methods, learned in core business and accounting classes in fact based situations. 2. Develop and carryout a capstone project to assist an organization with real-life business and accounting needs. 3. Demonstrate effective oral and written communication skills through various professional business communication methods. Course fee required. Prerequisites: ACCT 3500. FA, SP.

ACCT 4890. Accounting Internship I. 1-3 Hours.
Internship experience for students pursuing a degree or emphasis in Accounting. Variable credit 1.0 - 3.0. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Apply knowledge acquired in the class room to "real life" work situations. 2. Demonstrate hands-on experience in a potential career path. 3. Assess personal career interests and work abilities. 4. Demonstrate what is required to be successful in their chosen field of work. 5. Develop good general work habits and attitudes. 6. Develop professional readiness skills, such as written and verbal communication skills, analytical skills, problem-solving and decision-making skills. 7. Develop career networking opportunities. 8. Earn work credentials for resume. Prerequisites: ACCT 2020 and Instructor permission. FA, SP, SU.

ACCT 4891. Accounting Internship II. 1-3 Hours.
Internship experience for students pursuing a degree or emphasis in Accounting. Variable credit 1.0 - 3.0. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Apply knowledge acquired in the class room to "real life" work situations. 2. Demonstrate hands-on experience in a potential career path. 3. Assess personal career interests and work abilities. 4. Demonstrate what is required to be successful in their chosen field of work. 5. Develop good general work habits and attitudes. 6. Develop professional readiness skills, such as written and verbal communication skills, analytical skills, problem-solving and decision-making skills. 7. Develop career networking opportunities. 8. Earn work credentials for resume. Prerequisites: ACCT 4890; AND Instructor permission. FA, SP, SU.

ACCT 6110. Financial Accounting and Reporting. 3 Hours.
This course will cover the hypothetical, conceptual and pragmatic principles with form the general frame of reference for financial accounting and reporting. Pronouncements issued by FASB and predecessor standard-setting bodies will be researched as well as current accounting issues. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Explain the conceptual framework for financial reporting under both the U.S. generally accepted accounting principles (GAAP). 2. Describe and apply the time value of money concepts. 3. Prepare an income statement and detect issues dealing with its content, presentation, and disclosure. 4. Prepare and interpret a classified balance sheet. 5. Identify and explain the five steps in the revenue recognition process. 6. Specify the measurement and valuation issues and the related income statement effects of transactions involving cash, accounts receivable, and inventories. 7. Distinguish events that need to be recorded in the accounting records. 8. Prepare accounting records and financial statements from source documents in accordance with Generally Accepted Accounting Standards. 9. Identify the major differences between financial and tax accounting. 10. Explain and analyze financial statements, including their footnotes. Prerequisites: Acceptance into the MAcc Program. FA.

ACCT 6120. Business Environment and Concepts. 3 Hours.
This course will cover knowledge of corporate governance, economic concepts essential to understanding the global business environment and its impact on an entity's business strategy and financial risk management; financial management processes; information systems and communication; strategic planning; and operations management as it pertains to business environmental concepts of the CPA exam. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Evaluate the debt/equity benefits and risks of participants in specific corporate financing scenarios. 2. Analyze the pros and cons of venture capital financing in specific corporate scenarios. 3. Analyze management's fiduciary duties to corporate creditors and shareholders in specific corporate scenarios. 4. Compare the corporate liability consequences of SEC Rule 10 b-5 and SEC 16(b) in specific corporate scenarios. 5. Evaluate the liability exposure of corporate officers, directors and shareholders in SEC required financial reporting. 6. Analyze the business advantages and disadvantages of filing for Chapter 11 Bankruptcy Reorganization in specific corporate scenarios. Prerequisite: Acceptance into MAcc program. FA.
ACCT 6130. Auditing and Attestation. 3 Hours.
This course will focus on various theoretical and practical applications of the changing audit discipline. Authoritative attestation and auditing literature is studied as well as recent PCAOB pronouncements. Case studies will be used to consider risk assessment, independence issues, internal control evaluation, and audit processes. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Use auditing concepts and variables (e.g., client acceptance, risk assessment, materiality, understanding and testing of internal controls, analytical procedures, substantive audit testing, documentation of evidence, and completing an audit engagement) to make audit planning, testing, and evaluation decisions. 2. Apply auditing and assurance concepts to real-world case studies. 3. Apply statistical sampling concepts to auditing tests of controls, transactions, and balances. 4. Collaborate in teams to solve problems and present findings in both written and oral forms. 5. Examine characteristics of good professional judgment as well as common threats to good judgment. Prerequisites: Acceptance into MAcc program. SP.

ACCT 6140. Laws and Regulations. 3 Hours.
This course will include coverage of current legal and regulatory issues applicable to practicing accountants. Common law and statutory liability, UCC and contracts, and antitrust regulations will be covered. Taxation of property transactions, individual and entities will also be covered. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Clarify and explain significant values and policies inherent in the federal income tax system. 2. Apply critical rules of income realization and recognition and distinguish special situations involving excluded, deferred, and imputed income. 3. Apply concepts and rules involving the ordinary, necessary, reasonableness of business deductions and identify and apply issues relating to the capitalization of expenditures. 4. Identify and apply concepts and rules regarding allowances and limitations on the deductibility of losses. 5. Classify the types and determine the tax results of property transactions. 6. Recognize goals and policies in the use of entities to accomplish certain transactions. 7. Differentiate the requirements and results of certain timing issues involving permissible years, accounting methods, and changes in methods. Prerequisites: Acceptance into MAcc program. FA.

ACCT 6210. Advanced Individual Taxation. 3 Hours.
This course will emphasize topics affecting high-wealth individuals such as taxation of investments, charitable giving, alternative minimum tax, foreign income and assets, and compensation and retirement planning. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Describe and discuss important tax and nontax factors involved in selecting the entity type for a particular business. 2. Determine common corporate book-tax differences in accounting for various corporate transactions and reconcile the book and taxable income of a corporation. 3. Compute a corporation's income tax provision under the ASC 740 rules. 4. Compile the proper financial statement disclosures for a corporation's income tax expense related items. 5. Describe and discuss important tax and nontax issues relevant to corporate and flow-through entities. Prerequisites: Acceptance into MAcc program. FA.

ACCT 6220. Advanced Entity Taxation. 3 Hours.
This course involves federal taxation of entities that pass through certain income and deductions to its owners with primary emphasis on partnerships, S Corporations, trusts and estates. Some attention will also be given to transfer taxes in the form of estate and gift taxation. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Describe and discuss important tax and nontax factors involved in selecting the entity type for a particular business. 2. Determine common corporate book-tax differences in accounting for various corporate transactions and reconcile the book and taxable income of a corporation. 3. Compute a corporation's income tax provision under the ASC 740 rules. 4. Compile the proper financial statement disclosures for a corporation's income tax expense related items. 5. Describe and discuss important tax and nontax issues relevant to corporate and flow-through entities. Prerequisites: Acceptance into MAcc program. FA.

ACCT 6230. Estates, Gifts and Multijurisdictional Tax. 3 Hours.
This course examines the details of three Federal transfer taxes: the estate tax, gift tax and generation skipping tax. Topics will include transfers subject to the gift tax, valuation of gifts, gift tax exclusion, gift splitting, the gross estate, deductions for transfer taxes, life insurance subject to estate tax and the determination and payment of the three taxes. This course will also cover global, state, and local taxation issues. It will include, but not be limited to, transfer pricing, foreign tax credits, subpart F, tax treaties, different types of taxes, and nexus. Students will be expected to prepare estate and gift tax returns, multi-jurisdictional tax returns, and research issues related to transfer taxes and present topics to the class. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Apply the federal income tax laws dealing with estates and trusts. 2. Apply the federal transfer tax laws dealing with gifts with special attention to understanding the marital deduction. 3. Apply the federal transfer tax laws dealing estates with special attention given to transfers prior to death requiring inclusion in the gross estate and property transferred to the surviving spouse that qualifies for the marital deduction. 4. Evaluate data to complete the forms for filing estate, gift, and trust returns. Prerequisites: Acceptance into MAcc program. FA.

ACCT 6310. Advanced Cost Accounting. 3 Hours.
This course reviews the development and use of management accounting information systems in planning and control activities. The course will prepare students for completing the 2nd part of the CMA designation and will use case studies of actual companies. It will focus on new management accounting practices adopted by the innovative companies around the world. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Apply advanced management control concepts, techniques, and practices applicable to private and non-profit organizations' issues. 2. Examine and report on management control problems related to cost management, budgeting, performance measurement, performance evaluation, and reward systems, as well as, governance and ethics, in private and non-profit organizations. 3. Identify the needs and impact of information technology on management's decision making and performance evaluation. Recognition of data quality being intertwined with IT and implications. 4. Assess accepted evaluation measures, scorecards, and incentives. Critically evaluate the effectiveness of continuous improvement methods as they relate to performance and organizational profitability. 5. Evaluate "sustainable" profit maximization and capacity management objectives. Ethical and privacy issues related to information technology are included in sustainability paradigm. 6. Write/present well researched and justified professional reports individually and in groups. 7. Develop recommendations, including prioritizing, in formal business reports using an appropriate business style format. Prerequisites: Acceptance into MAcc program. FA.
ACCT 6320. Advanced Accounting. 3 Hours.
Covers the nature and financial reporting aspects of these complex business transactions, including accounting for business combinations and consolidations, joint ventures and foreign currency translations and segment reporting, as well as the unique accounting and financial reporting issues facing not-for-profit organizations and governmental entities. Inclusive Access Course Material (electronic book) fees may apply, see Fees tab under each course section for details. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Prepare consolidated financial statements as of the date of acquisition and for periods subsequent to the date of acquisition. 2. Demonstrate an understanding of current GAAP related to Business Combinations and its relationship to present reporting practices. 3. Identify and account for the accounting techniques and methods associated with the formation and liquidation of partnerships. 4. Prepare and analyze accounts for importing and exporting transactions denominated in foreign currencies, as well as accounting for forward exchange contracts. 5. Explain the role of Fund Accounting. 6. Prepare and analyze journal entries using the Fund Basis of Accounting. 7. Prepare an interpret financial statements using Fund Basis of Accounting. SP.

ACCT 6330. Advanced Forensic Accounting & Fraud Examination. 3 Hours.
This course will cover the Association of Certified Fraud Examiner's Fraud Manual and the information needed for the Certified Fraud Examiner Certification Exams. The course will review the four sections of the Exam: Financial Transactions and Fraud Schemes; Law; Investigation; and Fraud Prevention and Deterrence. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Describe and differentiate fraud schemes and the different techniques used to prevent and detect them. 2. Explain what basic tools and techniques are necessary to litigation support, including gathering and storing evidence, when conducting a fraud examination and identifying the perpetrators. 3. Examine the statutes and common law principles involved in prosecuting fraudsters through both the criminal and civil court systems. 4. Recommend different fraud prevention programs and risk assessment procedures depending on organization situation. 5. Demonstrate an understanding of the ACFE Code of Professional Ethics and the Code of Professional Standards. SP.

ACCT 6340. Predictive Analytics for Accounting & Decision Making. 3 Hours.
This course will build a practical foundation for machine learning by teaching students basic tools and techniques that can scale to large computational systems and massive data sets. This course follows the first course in the foundations of data analytics series to teach students to draw inferences from large, complex, and diverse data. This course contains eight modules that introduce machine learning, with a focus on business applications. This course will introduce the Scikit Learn and Statsmodels Python modules, while also demonstrating new applications of the NumPy, Pandas, Matplotlib, and Seaborn modules. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Distinguish the different types of machine learning algorithms and provide examples where each type might be applied within the Accounting profession. 2. Explain the challenges in cleaning and pre-processing data. 3. Explain how to work effectively with imbalanced training classes. 4. Demonstrate proficiency performing basic descriptive and predictive analysis such as regression, k-nearest neighbor, decision tree, support vector, ensemble learning and Bayes and Gaussian process algorithms. 5. Evaluate the performance and ethical use of a machine learning classification and machine learning regression analysis. SP.

ACCT 6900. Graduate Accounting Internship or Project. 3 Hours.
A significant professional-level field experience in the area of accounting or taxation. The student will be counseled and supervised as he/she applies and integrates the knowledge and skills obtained through MAcc. **COURSE LEARNING OUTCOMES (CLOs) At the successful conclusion of this course, students will be able to: 1. Apply business and accounting knowledge and skills to solve problems faced by organizations. 2. Work in a collaborative fashion with colleagues, staff and supervisors. 3. Demonstrate responsibility, accountability and dependability in a professional business environment. 4. Utilize technology and analytical tools to address accounting issues faced by businesses. 5. Assess potential career interests through an enhanced experience and knowledge base. Prerequisite: Acceptance into MAcc program. FA, SP, SU.
