Criminal Justice - Law Enforcement, BA/BS

Program Description

Utah Tech's Criminal Justice major is an interdisciplinary program that combines the study of criminal law, law enforcement, and criminology, providing a firm foundation for a myriad of careers. This course of study exposes students to the interconnected nature of the criminal justice system and explores criminological explanations for crime commission. Graduates from this program are prepared to enter applied positions in the criminal justice system or pursue graduate degrees in law, criminology, sociology, forensics psychology, etc. The law enforcement emphasis is comprised of 45 total credits. The core requires students to take courses in criminal justice, philosophy, technical writing, communications, and social/behavioral science. In addition to the established core curriculum, students will take courses in the following areas: social and behavioral sciences; ethical communication; and policy and practice. This emphasis prepares students to enter the field of law enforcement with skills that supplement the training cadets receive in the law enforcement academy.

Program Curriculum

Be advised that completing your academic degree does not automatically qualify you for employment in the Law Enforcement field. Additional steps are required by agencies you are interested in. For example: Police Officers will be required to complete POST (Police Academy).

120 Credits

Utah Tech General Education Requirements

All Utah Tech General Education requirements must be fulfilled. A previously earned degree may fulfill those requirements, but courses must be equivalent to Utah Tech's minimum General Education standards in American Institutions, English, and Mathematics.

General Education Core Requirements (https://catalog.utahtech.edu/programs/generaleducation/#gerequirementstext)
