CHEM 4610	Nutritional Biochemistry	3

1. COURSE FEE REQUIRED. See course fee for details.

Chemistry Minor Note

Elective courses used to fulfill this requirement must be taken at Utah Tech. Chemistry courses numbered 3000 and above may not be used to fulfill requirements for both a Biology major and a Chemistry minor.

Completion Requirement

- Complete all courses that fulfill requirements in the minor with a grade C or higher.

Notes:

An academic minor is an attribute of a baccalaureate degree, not an entity by itself, and can only be awarded at the same time a student graduates with a bachelor's degree. Students must declare a minor prior to submitting a graduation application. A minor may not be added to a previously awarded degree. Students must complete the minor requirements prior to or concurrent with completion of their bachelor's degree requirements. Minors are not available with associate's degrees.

Students may not declare a minor that is in the same discipline as their major. Example: English majors cannot declare any English minor.

Integrated Studies majors may not have an academic minor in the same discipline as either of their two declared emphases. Example: An Integrated Studies major with emphases in English and Spanish cannot receive a minor in either English or Spanish.
