

Communication Studies - Applied Leadership Emphasis, BS

Program Description

Communication Studies majors learn human interactions and skills including: public speaking, academic writing, relationship maintenance and ethical strategies. This scholarship results in an environment in which lifelong learners thrive. We offer 5 different degree emphases, and a degree completion program. Come learn alongside our award-winning faculty as we prepare you to enter the workforce upon graduation. Utah Tech University Communication Studies graduates are skilled, knowledgeable, and prepared to create their own path for success. Join us in our pursuit to understand how human interaction affects the world we live in today.

Admission Requirements

Students must be admitted to Utah Tech University including submitting previous college transcripts to the Registrar's Office before they will be considered for admission to the Communication Studies program. Departmental approval is required prior to formally declaring communication as a major. Students are admitted to the Communication Studies baccalaureate program upon completion of the following admission requirements:

1. Cumulative GPA of 2.0 (C) or higher
2. Completion of a Communication Studies Program admission application
3. Consultation with a Communication Studies Advisor

Students may self-declare "pre-Communication Studies" (BS-CMST-P) as their major before completing the consultation with a Communication Advisor.

Advisement

Students will consult with the Communication Department advisor who will review the student's current academic status, explain degree requirements, and assist in creating a degree completion plan. Students must submit a program admission application with their advisor to declare a major. Upon nearing degree completion, the student must again meet with the advisor to go over the graduation checklist and sign the graduation audit. Advisors provide an important resource in helping to stay on track toward academic goals throughout the Communication course of study.

Academic Requirements

To remain in the Communication baccalaureate program, students must maintain an overall GPA of 2.0 (C) or better. Students are also required to achieve not less than a C in each lower- and upper-division core communication class. If a student does not achieve this level in any core class, s/he will be required to take it again until the standard is met.

Program Curriculum

120 credits

Utah Tech General Education Requirements

All Utah Tech General Education requirements must be fulfilled. A previously earned degree may fulfill those requirements, but courses must be equivalent to Utah Tech's minimum General Education standards in American Institutions, English, and Mathematics.
