# **Sustainability Certificate**

## **Sustainability Certificate requirements**

#### 24 Credits

Code	Title	Hours
ENVS 1210 & ENVS 1215	Introduction to Environmental Science and Introduction to Environmental Science Laboratory	4
ENVS 2210	Environmental Pollution and Remediation Techniques (Prerequisites: MATH 1050 or higher; and CHEM 1210 and CHEM 1215)	3
ENER 3310	Energy and the Environment	3
GEO 1110 & GEO 1115	Physical Geology (PS) and Physical Geology Lab (LAB)	4
GEO 2050	Earth Materials	4
ENGL 2201	Literature and the Land (HU, GC)	3
GEOG 3410	Paleoclimatology	3

### **Completion Requirements**

- 1. Complete 24 credit hours of required courses. Prerequisite courses are stacked within other degree plans.
- 2. Cumulative GPA of 2.0 or higher

#### **Sustainability Certificate Program Learning Outcomes**

At the successful completion of this certificate program, students will be able to:

- 1. Formulate sustainable approaches to energy and earth science issues that integrate environmental, economic, behavioral, and sociopolitical perspectives.
- 2. Distinguish between Earth's surface and deep energy sources and the processes they power and appraise how we depend on and harvest those energy resources to sustain our society.
- 3. Evaluate the benefits of conventional and renewable energy systems, including those that are involved in transportation technologies, food production, energy security, and how to evolve into sustainable energy operations.
