

Physical Therapist Assistant, AAS

AAS Physical Therapist Assistant Program Learning Outcomes

At the successful conclusion of this program, students will be able to:

1. Utilize cognitive, affective, and psychomotor interventions under the direction and supervision of a physical therapist.
2. Uphold principles of ethical conduct for the PTA in all areas of practice as identified by the APTA.
3. Emphasize evidence-based physical therapy practice to drive professional growth within the profession.
4. Demonstrate the skills required of an entry-level PTA in carrying out the plan of care (POC) and work as an effective member of the PT/PTA team.
5. Utilize effective oral and written communication skills with patients, their families, caregivers, other health care providers, and the community.
