

Individualized Studies, BAP

Program Description

The Utah Tech Bachelor of Applied Practice in Individualized Studies is an interdisciplinary degree program in which students customize and title their program of study in accordance with their post-graduate goals and in collaboration with supportive and enthusiastic faculty and staff mentors. This degree program aims to serve students with the maturity and life experience to participate in the design of their own program, who have specific career goals that do not require a traditional bachelor's degree, and who want to enter the job market quickly.

Program Curriculum

90 Credits

Utah Tech General Education Requirements

All Utah Tech General Education requirements must be fulfilled. A previously earned degree may fulfill those requirements, but courses must be equivalent to Utah Tech's minimum General Education standards in American Institutions, English, and Mathematics.

BAP Individualized Studies Program Learning Outcomes

At the successful completion of this program, students will be able to:

1. Demonstrate basic statistical competency.
2. Author effectively written and oral communication related to disciplinary content.
3. Construct documentation that outlines an individualized degree plan, including title, mission statement, and individualized program learning outcomes.
4. Assemble a portfolio that demonstrates that individual program learning outcomes have been met.
5. Develop strategies for working in teams.
