

Psychology, BA

Program Description

The Bachelor of Arts (BA) degree in Psychology is designed to prepare students to become scientifically literate citizens who apply an understanding of scientific principles and findings to benefit the communities they belong to. Successful graduates of the BA in Psychology will be familiar with the major concepts, theories and historical trends of psychology, and can apply their understanding of these ideas and principles to solve problems relating to behavior and mental processes. Through their experiences inside and outside the classroom, students learn to apply what they learn about human behavior and mental processes to improve their personal and social well-being, and to advance their personal and career goals.

Program Curriculum

120 credits

Utah Tech General Education Requirements

All Utah Tech General Education requirements must be fulfilled. A previously earned degree may fulfill those requirements, but courses must be equivalent to Utah Tech's minimum General Education standards in American Institutions, English, and Mathematics.
