## Digital Film, BS

## **BS Digital Film Program Learning Outcomes**

At the successful conclusion of this program, students will be able to:

- 1. Assess and critique the efficacy of various theoretical filmmaking techniques by surveying the evolution of cinematic language within various historical and cultural contexts.
- 2. Identify and apply professional film industry standards regarding set protocol, etiquette, and safety through practice operating in various capacities on film sets.
- 3. Examine, assess and apply technical skills related to a variety of audio-visual equipment, hardware, and software required during the preproduction, production, & post-production processes.
- 4. Design, coordinate and execute meticulous production plans and schedules for collaborative film projects from conception to delivery.
- 5. Appraise and apply various visual, aural, and written communication techniques to convey the elements of story
